Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 August 2006.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 4-6, 17, 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hedenberg '840 in view of Morino et al.

There is disclosed in Hedenberg a bread maker comprising a main body 200 having an oven compartment 212 with a front opening, a door 204 to open and close the front opening, a pair of kneading drums 230, 232 inside the compartment, a mixing bag 100, a drum driver (not shown) to rotate the drums, a heater (col. 2, lines 46,47) inside the oven compartment, and a heater driver (not shown) to operate the heater, the bread maker comprising: a controller (col. 4, lines 25-60) controlling the rotation of the drums and operation of the heater.

Morino discloses, in a bread maker, a door sensor and controller 147, 148a for controlling the kneading operation and heating operation of the bread maker as a result of the sensor sensing if the door is open or closed. Additionally, Morino discloses a display means 198 to warn the user that the door is open.

It would have been obvious to one skilled in the art to provide the bread maker of Hedenberg with the door sensor and control taught in Morino, in order to prevent operation of the device if the door is open.

In regards to the kneading drum rotation direction and calculation of a predetermined elapsed time, such is an operational step of the device and is a result of programming of the controller. There is no structural limitations being defined.

Allowable Subject Matter

Claims 9, 10, 12-14, 16, 21 and 23-25 are allowed.

Response to Arguments

Applicant's arguments filed 18 August 2006 have been fully considered but they are not persuasive. Applicant argues that the prior art fails to teach a determination as whether the door is closed within a predetermined time since being opened.

Such a limitation is operational and not structural. All of the structural limitations of the claims have been met by the prior art. The operation of the controller can be set by the user. Thus, this limitation has not been given patentable weight.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
